INSTRUCTIONS: Complete the following *My College Graduation Vision* by filling in the appropriate blanks. Be sure to complete *all* blanks! (It's not enough to only list a start date! A true vision begins with the end in mind, so be sure to list when you plan to graduate as well!) Then sign your name and date it at the bottom and have a trusted mentor – preferably someone who cares about you AND is a college graduate – sign his or her name and date it, too.

*You will want to make at least two copies – one for you and one for your mentor.

Place your copy in a prominent place in your dorm room or home (so that you see it daily) and have your mentor do the same. This will help you stay focused and will allow for your mentor to keep you accountable during your college journey.

PS – Be sure to keep this throughout your entire college journey. After you graduate, you can frame it and put it on your wall – *next to your degree!* 😊
